Piedmont	Tuesday	7:30	Talking operations with other folks who "have their fingers on the network": What are you doing to keep the bad guys off your network? What patterns are you seeing trending? How can we help each other to protect the public while still vigorously competing?		Tony Davidson
Sully	Tuesday	8:30	CNAM: Is it time to end CNAM once and for all? We are trying to instill trust in the caller name display, and any insecure/inaccurate method undermines all the work we are collectively doing. We'd love to see the major carriers and the analytics providers join the discussion.	https://mail.google.cc	Kieth Buell
Belmont Ballroom	Tuesday	9:30	Implementing New Digital Identity for Improved Consumer Protection and Advice of Call This fits with branded calling (current and BCID) and may also stand-alone in support of the current environment as well as support potential ruling based on outstanding NPRM addressing "AI-generated calls".		Gerry Christensen
